Re: Notices of Change of Water Right Ownership and Assignment of Permits

Dear Mr. Haynes:

I spoke to you a couple of weeks ago regarding a large assignment project for former Potlatch Corporation facilities. Attached please find documentation regarding Notice of Change of Water Right Ownership and Assignment of Permits for these water rights. There are twenty-six water rights, and several entities involved in the assignment; therefore, in an effort to simplify the process we have provided a summary spreadsheet describing all of the water right assignments (see **Attachment A**). The documentation supporting each assignment is contained in the enclosed binders and is referenced by tab number in Attachment A.

In April 2006 we assisted Potlatch Corporation with a water rights assignment regarding some of the same water rights. The assignment at that time was from Potlatch Corporation to Potlatch Forest Products Corporation ("2006 Assignment") (see **Attachment B**). It appears that the 2006 Assignment was not completed as many of those water rights are still listed under Potlatch Corporation. The rights for which the previous transfer is incomplete are marked with a "Note" in Attachment A stating "Owner listed as Potlatch Corporation – requested transfer incomplete." The 2006 Assignment will need to be completed as part of this request since those rights are now being assigned from Potlatch Forest Products Corporation as further described in Attachment A.

A check for the filing fee in the amount of \$1,550.00 is also enclosed.

Because of the complexity of the assignment, please let us know if you would like to have a conference call to walk through these documents or if there is anything else we can do to assist you in completing the assignments. As I mentioned on the phone, Bill Davis at Potlatch Forest Holdings, Inc. has been instrumental in providing information about the various water rights and will be a good contact if you have questions about the water rights. His contact information is:
