Subject: water right transfer application #75704

To whom it may concern,

I feel that my request for an extension of time (until 6/25/10) in which to further review the amended application for transfer #75704 is justified... I found another "error" on the amended application dated May 25th, on page 3 of 7 at e. stating "No existing water rights for irrigaion of the additional 20 acres in **Section 19 T2S R4W** proposed for addition to the current place of use.

Owyhee County Assessor's office determined that the NW Sec 19 2S 4W is private property owned by Richard Brandau. His deeds, levy sheets and tax billings lead me to concur.

I am going to assume that Mr. Orndorf needs to amend his application again and if so when will I receive a copy for review? And the question again, will or will not IDWR re-advertise the legal notice for this amended application?

Respectfully,
Connie Brandau, Watermaster Dist 57R
