STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

RECEIVED

JUN 01 2010

WATER RESOURCES
WESTERN REGION

1. Name: TROY D TAYLOR And/or
CARRIE L TAYLOR
PO BOX 672
STAR ID 83669
(208)841-7579

2. Source: GROUND WATER

3. Location of Point of Diversion:

#1 GROUND WATER L3 (NW1/4SW1/4) Sec. 30, Twp 05N, Rge 01W, B.M.
ADA County

4. Water will be used for the following purposes:

<u>Purpose</u>	<u>From</u>	<u>To</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/01	to 11/15	0.16 CFS	
IRRIGATION STORAGE	01/01	to 12/31		23.0 AF
IRRIGATION FROM STORAGE	03/15	to 11/15		23.0 AF
AESTHETIC STORAGE	01/01	to 12/31		1.0 AF
DIVERSION TO STORAGE	01/01	to 12/31	0.16 CFS	

5. Total quantity to be appropriated is: 0.16 CFS AND 23.0 AF

6. Proposed diverting works:

POINT OF DIVERSION #1

- Type and size of devices used to divert water from the source: WELL
- Height of storage dam 6 feet;
Active reservoir capacity 0.625 acre-feet;
Total reservoir capacity 0.625 acre-feet;.
- Proposed well diameter is 6 inches;
Proposed depth of well is 353 feet.
- Is ground water with a temperature of greater than 85F being sought? NO
- If well is already drilled, when? 2005;
Drilling Firm: RIVERSIDE INC;
Drilling Permit No. 835825.

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 2 year(s).

8. N/A

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both to irrigate your lawn, garden, and/or landscaping? THIS WATER WILL BE USED TO IRRIGATE LAWN, GARDEN AND LANDSCAPING. THERE ARE NO OTHER WATER RIGHTS USED FOR THE SAME PURPOSES DESCRIBED ABOVE.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

11a. Who owns the property at the point of diversion? If other than applicant, describe the arrangement enabling the applicant to make this filing. APPLICANT

11b. Who owns the land to be irrigated or place of use? If other than applicant, describe the arrangement enabling the applicant to make this filing. APPLICANT

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

THE POND WILL BE BOTH FOR AETHETICS AND FOR IRRIGATION STORAGE. THE POND WILL BE FILLED UP ON A WEEKLY BASIS AS NEEDED. THE POND IS APPROXIMATELY 240 FEET IN CIRCUMFERENCE AND APPROX. 6 FEET DEEP WITH SLOPED SIDES. THIS WATER IS GOING TO BE PUMPED TO SPRINKLERS FOR PART OF THE IRRIGATION.

13. Map of proposed point of diversion and place of use attached? [X]

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

RE: Application For Permit No(s): 63-32644, 63-33327

Dear Legal Notice Department:

Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 7/6/2010. Your cooperation is appreciated.

Sincerely,

Denise Buffington
Administrative Assistant

Enclosure(s)

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

63-32644

STAR SEWER & WATER DISTRICT

PO BOX 400

STAR, ID 83669

Point of Diversion NWNW S16 T04N R01W ADA County Source GROUND WATER Tributary

Point of Diversion SWNW S11 T04N R02W CANYON County Source GROUND WATER Tributary

Use: MUNICIPAL 01/01 to 12/31 5 CFS

Total Diversion: 5 CFS

Date Filed: 4/11/2007

Place Of Use: MUNICIPAL

Municipal use is for the district service area in Ada and Canyon Counties. Water bearing zone to be appropriated is 150-190 ft. for 1 existing well and 450-650 ft. for 2 existing plus 2 proposed wells. Proposed wells will be near Hwy 44/Plummer Road and Hwy 44/Kingsbury Road. Proposed use is for reasonably anticipated future needs in a 20 year planning horizon based on 1996 Municipal Water Rights Act (IC 42-202B etc.). Published in the Idaho Statesman and Press Tribune on June 17th & 24th, 2010

COPY

Re: Application for Permit No. 63-33327

Dear Mr. and Mrs. Taylor:

This office received your Application for Permit seeking a water right referenced above. Upon review of your application, there are a few areas of the application that need correction or completion. I address in further detail specific areas for correction or completion below. I have drafted an amended application for signature that addresses the corrections based on information submitted with the original application and current Department standards and policies. I have enclosed a copy of the original application with areas I have corrected highlighted and the corrections with agent remarks in red. Please review the amended application, make any necessary changes (date and initial any such changes), sign it, and submit it along with the correct filing fee to the Department for further processing.

The areas of your application that need further correction or completion are as follows:

- The quantity proposed for diversion (item no. 4 and no. 5). The application indicates the applicant proposes to irrigate 8 acres of land, which requires 36 AF per Department standards. The maximum volume of irrigation storage based on proposed pond size (0.625 AF) filled weekly during the standard irrigation season (36 weeks) is 23 AF. Therefore, some natural flow, non-stored water, irrigation component is required. Department standards allow for a maximum natural flow of 0.16 cfs for irrigation of 8 acres. The amended application has been drafted to allow for this maximum natural flow quantity along with the maximum irrigation storage and irrigation from storage based on your proposed pond size. It is likely the system you develop will require much less than the maximum of 0.16 cfs natural flow component, but the application as drafted allows for flexibility in project development without increasing the required filing fee in this instance. If you do not wish to allow for this flexibility, please feel free to amend the irrigation and/or diversion to storage use described in the amended application. However, the 23 AF irrigation storage use described is the maximum allowable for the proposed pond size, thus should not be changed from the amended application as drafted unless the pond size is increased.
- The irrigation season of use (item no. 4). The Department standard irrigation season for the proposed site is 3/1 to 11/15 as drafted on the amended application.
- Is ground water greater than 85° F being sought (item no. 6d). This item was left unanswered on the original application. The amended application has been drafted to indicate geothermal water

Taylor
May 24, 2010
Page 2 of 2

is not being sought for this project. If this is incorrect, please amend the application enclosed accordingly.

- Describe any other water rights used for the same purposes described above (item no. 10). The original application did not address this question. Department records indicate there are no other water rights for irrigation associated with the proposed site. The amended application has been drafted indicating such. If this is incorrect, please amend the enclosed application accordingly.

In addition to an amended application, the Department requests you submit the correct filing fee for the application. The original application and enclosed amended application fall into the second filling fee category of \$250.00 based on the proposed volume (28 AF originally and 23 AF amended). It appears you submitted \$100.00 with the original application based only on the rate of flow proposed. When an application proposes a natural flow and storage component, the higher filing fee category (either cfs or AF) is applicable. Please submit an additional \$150.00 with an amended application to allow for further processing.

Please submit the signed amended application, with any necessary corrections, and the additional filing fee to allow for further processing of the application. If amendments are necessary to the enclosed application, please note on the application the date the application was amended and initial or sign next to that date indicating the author of the amendments. Your response, or a request for more time to make your response, must be received within sixty (60) days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm
Water Resource Agent, Sr.

Ident. No. 63-33327

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

1. Name: TROY D TAYLOR And/or
CARRIE L TAYLOR
PO BOX 672
STAR ID 83669
(208)841-7579

2. Source: GROUND WATER

3. Location of Point of Diversion:

#1 GROUND WATER L3 (NW1/4SW1/4) Sec. 30, Twp 05N, Rge 01W, B.M.
ADA County

4. Water will be used for the following purposes:

<u>Purpose</u>	<u>From</u>	<u>To</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/01	to 11/15	0.16 CFS	
IRRIGATION STORAGE	01/01	to 12/31		23.0 AF
IRRIGATION FROM STORAGE	03/15	to 11/15		23.0 AF
AESTHETIC STORAGE	01/01	to 12/31		1.0 AF
DIVERSION TO STORAGE	01/01	to 12/31	0.16 CFS	

5. Total quantity to be appropriated is: 0.16 CFS AND 23.0 AF

6. Proposed diverting works:

POINT OF DIVERSION #1

- Type and size of devices used to divert water from the source: WELL
- Height of storage dam 6 feet;
Active reservoir capacity 0.625 acre-feet;
Total reservoir capacity 0.625 acre-feet;.
- Proposed well diameter is 6 inches;
Proposed depth of well is 353 feet.
- Is ground water with a temperature of greater than 85F being sought? NO
- If well is already drilled, when? 2005;
Drilling Firm: RIVERSIDE INC;
Drilling Permit No. 835825.

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 2 year(s).

8. N/A
