RE: Application for Permit: 67-15030

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Buffington

Re: Application for Permit No. 67-15030

Dear Ms. Graves:

You filed an application for a new water right on behalf of your clients, Tom and Norma Grossen, from a regulated source within the Weiser River Water District. Regulated sources include tributary surface water and tributary shallow ground water (ground water above the first confining layer in the aquifer). If approved, this application would be a junior water right.

The Weiser River Watermaster regularly curtails junior water rights by June 15 each year. This is necessary under Idaho law to protect senior water rights when the water supply is not adequate to fill all rights at the same time. There may not be adequate water to fill this new appropriation. Hence, you must provide information that there is sufficient water available to fill this right without injury to senior water rights.

If this application is approved, it would include a condition of approval automatically curtailing this new use by June 15 of each year. This condition of approval balances protection of senior water rights with promotion of the maximum economic benefit of water resources. Please discuss this with your clients, determine if they want to proceed with the application and have them complete and return the enclosed questionnaire.

Their written reply must be received within the next thirty (30) days, by April 26, 2010. Failure to make a timely response will cause this application to be voided and a refund of the application fee will not be issued for a voided application. Please contact me at 208-334-2190 if you have any questions.
