Dear Water Right Holders

The Department of Water Resources has issued the enclosed approved Transfer of Water Rights in connection with the Preliminary Order issued on November 19, 2009. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

Condition #2 of the preliminary order approving Transfer 73901 and this approval document requires the submittal to the Department of a land list and a map that specifically describes the location of the 53.2 acres of irrigation authorized under this right within the 175.0 acre place of use prior to use of water. At this time, the Department has not received any documentation from the right holder. Use of ground water under Right 63-32184 is not authorized until sufficient documentation has been submitted by the right holder.

This transfer approval includes a condition requiring measuring and recording devices, such as devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's homepage on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.
