

MEMORANDUM

Date: June 04, 2010
To: Water Right File 31-11443
From: Sandy Hemenway
Re: Data Entry Correction and changed in irrigation location

On 6/4/2010, the following condition was changed, per management approval: Condition X35 was originally shown as 31-7014 and 31-11810, and was changed to 31-7014 and 31-11443. There is no water right 31-11810. Also the acreage combined limit was changed to match the combined limit that the data base showed for 31-7014 and 31-11443, being 295 acres.

Per a phone conversation on 6/4/2010 with David Sanders, his intention was to obtain a rental agreement to supply water to the 19.4 acres and 15.4 acres indicated on the faxed NAIP 2009 map prepared by Heather Bohac/IDWR on 3/31/2010. David Sanders also wrote a note on the map faxed indicating that the 2 arrows marked on the map, are the locations where the water right rental agreement was needed. For this reason, the location and number of acres was changed on the rental agreement.
