WR#95-11027

Aaron,

Here is a "first reviewer" transfer from Northern. The transfer application file should be here when Tony returns from the North.

I looked at the application & want to point out a couple of items.

- The transfer appears to be based on an NIA Beneficial Use Claim (currently unverified). Since no NIA review has occurred, you will need to solicit information to confirm elements of right including priority date. Since is claimed as municipal, some of the data may be available from DEQ regarding PWS history/info. Region can assist if measurement necessary etc. See Section 5b.(4) of transfer memo.
- Use the well abandonment condition (???) for the current well.
- Large POU if municipal use supported (vs. domestic/irrigation).

Please let me know what you find & keep me in the loop for this first one. I just want to make sure you don't overlook something as you return to transfer review. Also, we are still working out the process kinks & the b/u claim review is a new kink to work through. I am always available for questions.

I have added this one to the spreadsheet.

PAM,

AS PER OUR CONVERSATION, THE ABOVE SAID TRANSFER APPLICATION IS BEING FORWARDED TO YOU BY TONY GULBIS. I HAVE SCANNED THE DOCUMENT IN THIS EMAIL JUST INCASE IT GETS LOST IN THE TRANSITION. THANKS FOR YOUR HELP.
