Re: License Exemption Application - Wayne Skeem
S & S Limited Partnership - Mud Creek-Sewer Creek
Hydro Project

Dear Wayne:

This letter is to acknowledge your contact with the Department of Fish and Game regarding your proposed hydropower projects in Twin Falls County using water from Mud and Sewer Creeks.

Our evaluation indicates no significant fish or wildlife problems if a satisfactory minimum flow is provided in both streams as well as fish screens at the diversion and fish passage facilities.

Sincerely,

A handwritten signature in cursive script that reads "William E. Webb".

William E. Webb
Region 4 Supervisor
