Public Notice of Application for Permit

PUBLIC NOTICE/APPLICATION NO. 071-OYC-4-001975

NAME S&S Limited Partnership

PUBLIC NOTICE DATE 26 May 1982

EXPIRATION DATE 25 June 1982

Interested parties are hereby notified that application has been received for Department of the Army permit for certain work in waters of the United States described below and shown on the attached plan.

APPLICANT - S&S Limited Partnership, Wayne B. Skeem, 1742 Targhee, Twin Falls, Idaho 83301, telephone (208) 734-8296 or 543-8082. For information from the Corps of Engineers contact Aletha Werner or Jim Fellows at (509) 525-5500, extension 669 or 682, FTS telephone 8-442-5669 or 5682, respectively.

LOCATION - Mud Creek, Sec. 14, T.9S., R.14E., B.M., Twin Falls County, Idaho.

WORK - Retain and maintain the concrete diversion structure across Mud Creek, the concrete control structure for the irrigation-hydro canal, and adjacent fills which are part of the structures. For additional project details, consult the attached drawing sheets.

PURPOSE (PER APPLICANT) - Diversion structures were constructed for irrigation and hydroelectric generation.

EIS DETERMINATION - A preliminary determination has been made that an Environmental Impact Statement would not have been required for the work.

OTHER AUTHORIZATIONS - Other authorizations obtained or requested include, but are not necessarily limited to, Fish and Wildlife, Idaho Fish and Game, Idaho Department of Water Resources, Idaho EPA, Federal Energy Regulatory Commission, and 9 more unlisted agencies.

WATER QUALITY CERTIFICATION - This will also serve as public notice of the intent of the Idaho Department of Health and Welfare, Statehouse, Boise, Idaho 83720, to consider certifying that the project or discharge herein will not violate existing water quality standards and that the permit will not be issued until such certification, as required by Section 401 of the Clean Water Act, has been issued by the State of Idaho.

JUN 2 1982

PUBLIC HEARING - Any person may request in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state with particularity the reasons for holding a public hearing.

CULTURAL RESOURCES - The latest version of the National Register of Historic Places has been consulted and this site is not listed. This review constitutes the extent of cultural resource investigations by the District Engineer, and he is otherwise unaware of the presence of such resources.

ENDANGERED SPECIES - Preliminary determinations indicate that the activity will not affect endangered species, or their critical habitat, designated as endangered or threatened (Endangered Species Act). Formal consultation under Section 7(c) of the Act is not required.

FLOODPLAIN MANAGEMENT - The activity will be reviewed in accordance with Executive Order 11988, "Floodplain Management," dated 24 May 1977. This review will also include evaluation of the activity to avoid the long and short term adverse impacts associated with occupying and modifying floodplains.

AUTHORITY - This permit will be issued or denied under the following authority:
Discharge of dredged or fill material into waters of the United States -
Section 404, Clean Water Act (33 U.S.C. 1344).

EVALUATION - The decision whether to issue a permit will be based on an evaluation of the probable impact, including cumulative impacts, of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits which reasonably may be expected to accrue from the proposal must be balanced against the reasonable foreseeable detriments. All factors which may be relevant to the activity will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion, and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food production, and in general the needs and welfare of the people. In addition, if the activity involved the discharge of dredged or fill material, the impact of the activity on the public interest will include application of the EPA Guidelines (40 CFR 230) as required by Section 404(b)(1) of the Clean Water Act.

COMMENT AND REVIEW PERIOD - Interested parties are invited to provide their views on the activity, which will become a part of the record and will be considered in the decision. Comments should be mailed to: District Engineer, Walla Walla District Corps of Engineers, ATTN: NPWOP-RM, Building 602, City-County Airport, Walla Walla, Washington 99362. Comments must be postmarked not later than the expiration date of this notice to receive consideration. Lack of response within the designated comment period will be considered as concurrence with the work or structure described herein.
