Re: Applications to Lease to and From the Idaho Water Supply Bank.

Dear Aaron:

Enclosed for processing is an Application to Lease Water to the Water Supply Bank, and a corresponding water lease from the Water Supply Bank. We visited previously regarding this situation by teleconference, and it is that Telford Lands, LLC is having practical difficulty with some of its current pumps, and could divert portions of their water right from wells within a ¼ mile of one of their existing points of diversion. The wells are located on lands owned by other people, which is why, at the present time, a transfer is not being filed. However, it is anticipated that a formal transfer would be filed sometime soon. In the meantime, you will note that the acres leased to and from the Water Supply Bank are the same, and again, the only intent of this water bank lease is to temporarily allow the diversion of water from two other well locations. If you have any questions or concerns, please let me know.

Best Regards,

Robert L. Harris
