Aaron,

I have had the chance to visit with Peter Eliopulos, the Trustee for the Meglon Trust, which claims an ownership interest in the two water rights pending before IDWR. I also have reviewed recent information sent to me by Eliopulos to update IDWR about the current status of litigation over an ownership interest in the two ranches related to the pending water right matters. I will advised Mr. Eliopulos that IDWR intends to go forward and process these water rights. There appears to be no reason to justify further delay in the processing of these two water right matters. To the extent the 9th Circuit court at some future date awards an ownership interest in the ranches to the Meglon Trust, it may file a change of ownership form with IDWR attaching the court decision and IDWR will process the change into the name of Meglon Trust.

John
