Department of Water Resources

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 63-12316 Telephone No. 208 385 9335

2. Name of Permit Holder(s): PARADISE HOMEOWNERS ASSN. INC.

3. Mailing Address: 320 SW 5TH AVE.

City MEREDEN State ID Zip 83642

4. Source of Water: SPRINGS If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____

Well Driller: _____ Drilling Permit Number: _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: HEATING

6. Total rate of diversion and/or volume for which proof is submitted: .08 cfs OR _____ acre-feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No _____

Has the measuring device been installed?

Yes _____ or No ✓

8. Fee Enclosed: \$ 50. (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Randy Powers Telephone Number: 385-9335

Address: 320 SW 5TH AVE MEREDEN ID 83642

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Randy Powers PRESIDENT PHOT Date: 12-26-2002

Permit To Appropriate Water

NO. 63-12316

Proposed Priority: February 6, 1996 Maximum Diversion Rate: 0.08 CFS

This is to certify, that PARADISE HOMEOWNERS ASSN INC
C/O JOYCE FARRIS
PO BOX 9
GLENN'S FERRY ID 83623-0009
has applied for a permit to appropriate water from:
SPRINGS tributary of GROUSE CREEK

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
-----------------------	----------------------	--------------------------

HEATING	01/01 to 12/31	0.08 CFS
---------	----------------	----------

LOCATION OF POINT(S) OF DIVERSION: SWSWNE , Sec. 33, Township 03N, Range 10E
Lot: 4(NESW), Sec. 33, Township 03N, Range 10E
ELMORE County

PLACE OF USE: HEATING

TWN RGE SEC

03N 10E 33 SWNE Lot 4(SW)

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 2003.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.
5. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
6. Return flow discharged to a subsurface system must be authorized by a separate injection well permit.
7. Use of water under this approval shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.
8. Place of use is located within Lots 1 & 3-6, Paradise Pines Subdivision.
9. Heating use is for 1 home and a recreation center.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12316 and 63-12317

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use forms submitted for the above referenced permits. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial uses.

During my review of your proof form for 63-12317, I found that you stated that you irrigate 3 acres. The permit allows $\frac{1}{2}$ acre or less per lot and you have 5 lots, which equals $2\frac{1}{2}$ acres of irrigation. You may want to check into this matter and notify the field examiner when he makes his review of the development. The acreage is so close to the permitted amount, you want to carefully clarify the amount and keep the total acreage developed within the conditions of the permit.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-12316

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

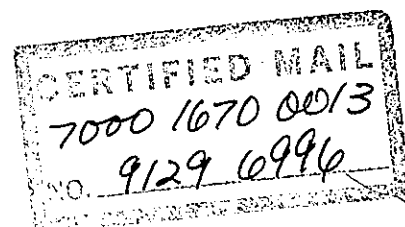

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Assistant
Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12316

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Be sure to note the special condition requiring you to install measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

FEB 26 1998

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

DATE: December 22, 1997

TO: Water Right File 63-12316

FROM: Shelley W. Keen *(SWK)*

RE: Points of diversion

The source indicated in application 63-12316 is "springs" located within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 33, T3N, R10E. The application also contains a statement that this application is for additional uses on the system already developed under 63-10560. According to the field report for 63-10560, however, the springs are located with the SW $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$ and Govt. Lot 4 (NE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$), Sec. 33, T3N, R10E. This morning I spoke to Steve Lester at Western Region regarding the discrepancy, and he was of the opinion that the points of diversion on the application should be changed to conform with right 63-10560. He also felt that the changes could be made without advertising the application again. Before making the change, I recommend contacting the Paradise Homeowners Association to be sure this change is acceptable to the applicant.

12/22/97 1:58 pm.

I spoke with Joyce Farris, Secretary/Treasurer, of Paradise Homeowners Assn. today. Ms. Farris stated the additional $\frac{1}{4}\frac{1}{4}\frac{1}{4}$ legal on the pld would be acceptable. *aj.*

MICROFILMED

FEB 26 1998

MEMORANDUM

TO: File No. 63-12316

FROM: Cindy Zimmerman 

SUBJECT: Analysis of additional information

DATE: December 18, 1997

On November 17, 1997, I wrote to the applicants requesting additional information on the proposed heating use of the recreation center and home. The purpose of the request for the additional information was to verify rate of flow requirements for the rec center and home proposed for development under this application.

On December 16, 1997, I received a response from Mark Johnson. Mr. Johnson's response provided some additional information. Specifically, Mr. Johnson provided:

- The temperature of the water, 128° F.
- The days per year water will be used, 180.
- The presumed insulation rating of the buildings, R-19 in walls & R-30 in roof.
- The identity of the board of directors of Paradise Pines, Inc.

Mr. Johnson's response did not identify specifics on the following requested information:

- The dimensions or square footage of the recreation center building and home proposed to be heated;
- The number of stories of each of the buildings;
- A description of the proposed method of disposing discharge or waste water.

Application Processing Administrative Memorandum No. 23 requires justification of and determination of a reasonable rate of flow for heating from a geothermal source. The amended memo provides guidelines for the determination of a reasonable rate of flow. Due to the lack of information provided by the applicant, an analysis to determination of a reasonable rate of flow for heating is not possible.

RE: Application for Permit No. 63-12316 and Permit No. 63-12317

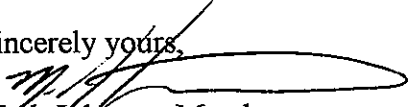

Dear Ms. Zimmerman:

This letter responds to your letter to Paradise Homeowners' Association letter, dated November 17, 1997. Pursuant to our request, the association was given an additional thirty days to respond. Our responses to your questions are as follows:

- A. Larry Johnson is the current President of the Paradise Homeowners' Association. Mr. Johnson resides at 985 N. 18th E. Mountain Home, ID 83647. Joyce Ferris is the Secretary/Treasurer. Ms. Ferris receives the Association's mail at P.O. Box 9, Glenns Ferry, Idaho 83623-0009;
- B. The dimensions of the proposed Recreation Center have not been determined, nor does the Association know the dimensions of the residential home to be built there;
- C. The number of stories for the structures has not been determined;
- D. The exact temperature of the water at the source is 128 degrees F;
- E. The insulation of the buildings will meet or exceed building codes for Elmore County and will presumably be R-19 in the walls and R-30 in the roof;
- F. Expected annual heating days will not exceed 180;
- G. Waste water discharge has not been determined at this time;
- H. No injection wells are located on the property;
- I. No ground source heat pumps have been selected at this time.

Thank you for your assistance with our application.

Sincerely yours,

Mark Johnson, Member
Water Rights Committee

RE: Application for Permit No. 63-12316

Dear Ms. Farris:

The above referenced applications have been sent to the State Office for final review and processing; however, before the application process can continue, I will need some additional information.

Due to the requirement of Water Allocation Rule 035.03.b.i., I need a list of the names, titles, and addresses of all officers of Paradise Homeowners Association, Inc.

Also, Idaho water law requires appropriated water to be put to beneficial use and limits the issuance of water rights to amounts that can be shown as beneficially used for uses described on the water right. I need to know more details of your project proposed in application no. 63-12317 in order to justify the rate of diversion you have applied for.

Specifically, I am requesting the following information:

- The dimensions or square footage of the recreation center building and home proposed to be heated;
- The number of stories of each of the buildings;
- The exact temperature of water you expect to use;
- The insulation value (R value) of the buildings;
- The number of days per year you expect to heat the buildings;
- A description of the proposed method of disposing discharge or waste water;
- If discharging to an injection well, please identify injection well permit number;
- If using a ground source heat pump, please provide manufacturer's water use data.

I will hold further processing on your application for 14 days pending your response.

Please submit this information as quickly as possible within the 14-day period to prevent any further undue delay in processing your application.

If you have any questions, you may contact me directly at (208) 327-7944.

Sincerely,

Cindy Zimmerman

RE: PARADISE PINES SUBDIVISION

Dear Mr. Lasuen:

The Idaho Department of Water Resources ("IDWR") offers the following comments on the above referenced project described by your recent letter.

It appears that the proposal includes the land described by pending water right application nos. 63-12316 (hot springs) and 63-12317 (ground water). Attached are IDWR reports listing the two filings. The water right applications cover an expansion of the existing water systems currently in place for two cold water wells plus two hot springs for existing uses under existing water rights.

New uses of the existing water systems must occur within the limits of these new water right applications. It appears that IDWR's decision regarding the filings will be issued in approximately one month now that processing has been resumed based on a recent letter from the applicant's attorney.

Please contact this office if more information is needed in this matter.

Sincerely,

Steve Lester
Water Rights Supervisor

Re: Applications for Permit Nos. 63-12316 and 63-12317 in the Name
of Paradise Pines, Inc.

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Sincerely,

DAVID R. TUTHILL, JR., P. E.

Boise, ID 83705

RE: Applications for Permit 63-12316 and 63-12317

Dear Sirs:

I represent Trinity Springs, Ltd., an Idaho corporation ("Trinity") and a member of Paradise Homeowners Association ("PHOA") by virtue of its ownership of two residential lots and the only commercial lot ("Lot 38") in Paradise Subdivision. Certain hot springs are located on Lot 38 which may be a proposed point of diversion for 63-12316. Trinity also owns the land where the points of diversion (wells) for 63-12317 are located. There is a pending dispute between Trinity and PHOA concerning membership rights in PHOA and the current and potential uses of the hot springs located on Lot 38 and other property owned by PHOA. Contrary to the statements in the above-referenced Applications, this dispute has NOT been settled.

Please consider this letter a formal protest to each Application. Enclosed is our check payable to IDWR for \$50.00 representing the protest fee of \$25.00 for each Application. This protest is filed on the grounds that each Application will reduce the quantity of water under existing rights, the water supplies are insufficient for the proposed purposes, the applications are not made in good faith, and they will conflict with the local public interest.

Sincerely yours,

HOGUE, SPECK & AANESTAD, P.A.

ORIGINAL TO FOLLOW BY MAILIdaho Department of Water Resources
Western Regional Office
2735 Airport Way
Boise, ID 83705**RE: Applications for Permit 63-12316 and 63-12317**

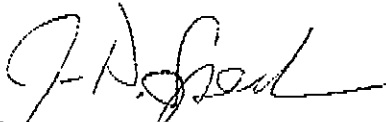

Dear Sirs:

I represent Trinity Springs, Ltd., an Idaho corporation ("Trinity") and a member of Paradise Homeowners Association ("PHOA") by virtue of its ownership of two residential lots and the only commercial lot ("Lot 38") in Paradise Subdivision. Certain hot springs are located on Lot 38 which may be a proposed point of diversion for 63-12316. Trinity also owns the land where the points of diversion (wells) for 63-12317 are located. There is a pending dispute between Trinity and PHOA concerning membership rights in PHOA and the current and potential uses of the hot springs located on Lot 38 and other property owned by PHOA. Contrary to the statements in the above-referenced Applications, this dispute has NOT been settled.

Please consider this letter a formal protest to each Application. Enclosed is our check payable to IDWR for \$50.00 representing the protest fee of \$25.00 for each Application. This protest is filed on the grounds that each Application will reduce the quantity of water under existing rights, the water supplies are insufficient for the proposed purposes, the applications are not made in good faith, and they will conflict with the local public interest.

Sincerely yours,

HOGUE, SPECK & AANESTAD, P.A.

Re: Applications for Permit Nos. 63-12316 and 63-12317

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced applications. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

Please contact this office if you have questions regarding this procedure.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office
