RE: Application for Permit: 65-23351

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Buffington  
Administrative Assistant

**Re: Application for Permit No. 65-23351**

Dear Mr. Laidlaw:

This office received the Application for Permit seeking a water right referenced above. Upon review of the application, there are a few areas of the application that need correction or completion. I address in further detail specific areas for correction or completion below. I have drafted an amended application for signature that addresses the corrections based on information submitted with the original application and current Department standards and policies. I have enclosed a copy of the original application with areas I have corrected highlighted and the corrections with agent remarks in red. Please review the amended application, make any necessary changes (date and initial any such changes), have the applicant sign it, and submit it to the Department for further processing.

The areas of the application that need further correction or completion are as follows:

- The point of diversion legal description (item no. 3). The township and range descriptions do not include a direction. The amended application has been drafted with the directions of north (N) and east (E) respectively as is applicable.
- The quantity proposed for diversion (item no. 4 and no. 5). The application indicates the applicant proposes to irrigate 2.7 acres of land with water from Payette Lake. Department standards allow for up to 0.03 cfs per acre for irrigation projects 5 acres or less in size. Thus, the maximum allow diversion rate per Department standards for the proposed project would be 0.08 cfs (~40 gpm) total. The application proposes diversion of 1.0 cfs (~449 gpm). Please amend the application to the allowable quantity or provide written justification for the excessive flow rate proposed. The enclosed amended application has been drafted for diversion of 0.08 cfs per Department Standards. If the

Jeffrey & Kris Stoddard Living Trust

Page 2 of 2

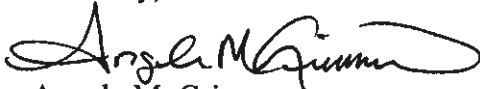

quantity is reduced per the amended application, the applicant may request a refund of \$150.00 for the difference in fee required based on the lesser quantity.

- The season of use (item no. 4). The standard irrigation season of use for the proposed property area is 4/15 to 10/31 not 5/1 to 10/15. The amended application has been drafted with the standard irrigation season of use.
- The place of use description (item no. 9). The township and range descriptions do not include a direction. The amended application has been drafted with the directions of north (N) and east (E) respectively as is applicable.

Please submit the signed amended application, with any necessary corrections, and the additional information requested regarding the proposed diversion rate to allow for further processing of the application. If amendments are necessary to the enclosed application, please note on the application the date the application was amended and initial or sign next to that date indicating the author of the amendments. Your response, or a request for more time to make your response, must be received within thirty (30) days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.
