Re: Water Right Permit 11-7151

Dear Sirs,

The Idaho Department of Water Resources (IDWR) received the information packet you mailed that included the signed application for permit, amendment fees, and FSA photographs.

I have reviewed the information you have provided and have adjusted the proposed place of use for license 11-7151. For your convenience, I have included a map that shows how the total place of use acreage was calculated. In addition, I have included a copy of the original application for permit and the map that was included with that application for your review.

I have enclosed a new application for amendment form that depicts the elements of the water right as they are proposed to appear on the license when issued. Please review the amendment form carefully. If you concur with the information presented, please sign the forms and return them to this office within 14 day's of receiving this letter. I have enclosed a postage paid envelope for your convenience.

By submitting the attached application for amendment, IDWR will consider it a request to withdraw the original amendment submitted on February 17, 2010, and replace it with the new amendment. Fees paid in February will be applied to the current application for amendment so no additional fees are required.

Please feel free to contact me with any questions.

Respectfully,

Craig L. Saxton
Water Right Supervisor
Adjudication Bureau
