RE: Change of Ownership for Water Right No. 63-4400

Dear Mr. & Mrs. Blessinger:

The department acknowledges receipt of the notice of change in water right ownership for water right no. 63-4400. Only 3.7 acres of the 8.2 acres of the irrigation portion of the water right intersects with your property. Therefore, a division of this water right will be required. The fee to split a water right is \$100.00.

I have enclosed a map which depicts the location of the water right and how it intersects with the tax lots. Also enclosed is a copy of the water right report with my notes as to how the water right will be divided.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please submit the additional fee of \$75 within 30 days of the date of this letter and we will process your notice. I would also like to note that the ownership of this water right will be changed to the names as listed on the deed, which are Drew Blessinger and Glenda M. Blessinger.

If you have any questions or need additional time, please call me at 208-287-4952.

Sincerely,

Emalee Rushing
Office Services Supervisor

Conditions of Approval:

1. G16 This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.
2. E62 This right when combined with all other rights shall provide no more than .02 cfs per acre.
3. N05 The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.
4. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
5. N08 The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.
