PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-22928

Dear Permit Holder(s):

The Department acknowledges receipt of a Statement of Completion for proof of beneficial use and license examination fee submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

During my review of your proof and water right permit, I found that condition no. 7 of this permit states:

"Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works."

I recommend that this condition be complied with immediately and prior to the field examination. If you feel this requirement is unnecessary you may request in writing to the Department that the requirement be waived. Additionally, you must contact the watermaster about his need for this requirement. If he agrees that the measurement device requirement is unnecessary, request that he/she provide the Department with written agreement that the requirement can be waived at this time. Upon receipt of your request and his acknowledgement the Department will issue an order waiving the requirement at this time.

In addition, I found that condition no. 8 of this permit states:

"Prior to diversion of water under this right, the right holder shall provide a means acceptable to the department to measure the amount of water entering the reservoir and the amount of water released from the reservoir."

Condition no. 8 listed above can be easily be complied with by installing staff gages, and is not a condition that would be waived. Enclosed is a copy of this permit for your information.

Be advised that Section 42-248, Idaho Code, requires you as the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office. These forms are available on the Department's website at: www.idwr.idaho.gov

Should you have any questions concerning the permit or the waiver of the measuring device, you may contact me at (208) 287-4945. If you have questions about the field examination, please contact the Western Regional Office in Boise at (208) 334-2190.

Sincerely,

A handwritten signature in black ink that reads "Darla Block". The signature is fluid and cursive, with the first name "Darla" and last name "Block" clearly distinguishable.
