REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

All infrastructure improvements have been made to the land where the water rights granted by the above-captioned permit will be used. These improvements, in addition to streets, sidewalks, joint utilities, and the like, include a 439 foot, 8" diameter well, pump house, and distribution lines, all as outlined by EHM Engineers' construction drawings dated September 22, 2008. These improvements were installed at a cost of over \$1 million, and represent Permit Holder's complete dedication to use of the water rights.

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Permit Holder completed the work needed for use of the water rights granted by the above-captioned permit, and had every intention of selling property to end users who would be using the water rights. However, the economic downturn and the catastrophic loss of real estate business in the Treasure Valley left Permit Holder with fully-developed property and no buyers/end users. The homesites are currently being marketed and will eventually have end users utilizing the domestic system and water rights.

Permit holder(s) request an extension to May 1, 20 12.
