Re: Application for Permit No. 63-33335

Dear Mr. Symms:

The Idaho Department of Water Resources (IDWR) received the above referenced application for a supplemental irrigation well on 2/11/2010. Your request to expedite the application was received on 2/19/2010.

IDWR cannot expedite your application at this time on the basis of your explanation. Typically around this time of year, IDWR receives more applications and more requests to expedite, probably because this period is near the beginning of a new irrigation season. Although this office tries to expedite applications whenever possible, it is simply not possible to accommodate every request. Additionally, budget conditions have exacerbated this situation.

However, we will process the application as soon as conditions allow. This will probably be sometime during the early part of the 2010 irrigation season.

More IDWR information is available on the Internet at www.idwr.idaho.gov. Please contact me at 334-2190 if you have any questions.

Sincerely,

Steve Lester
Water Rights Supervisor

Re: Request to Expedite APPLICATION FOR PERMIT for Symms Fruit Ranch, Inc.

Dear Mr. Lester:

By way of this letter, Symms Fruit Ranch requests that you expedite its request to appropriate water as set out in the submitted APPLICATION FOR PERMIT. The reasons for the request to expedite are that the irrigation season will start soon and Symms Fruit Ranch is planning to use the irrigation well to irrigate crops this year, and also that the well driller has set aside time to drill late winter, and may not be available this spring.

Thank you in advance and please immediately notify us if there is any problem with the Application.

Sincerely,

G. Dar Symms
