RECOMMENDATION OF WATERMASTER

Application No: 75608
Water Right No: 36-2593
Applicant Name: Jentzsch-Kearl

Watermaster's Recommendation:

a) ☐ I do not oppose approval of this application

b) ☒ I do not oppose approval of this application if it is conditioned as follows:

Old measurement conditions need to be replaced with 213 and 214 (N/A on remainder portions).

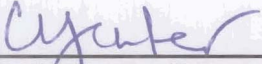

c) ☐ I oppose approval of this application(s) for the following reasons:

d) ☒ Additional comment:

POD in 7S21E Sec 4 L3 (NENENW) more correctly described as **SENENW**. The correction lot here causes the QQ to be about half as deep as standard (667 ft vs 1320 ft). The distance of the pod from the south QQ line usually determines the QQQ. Therefore at 424 feet from the south QQ line, the pod falls in the SE QQQ, and the NE QQQ is mostly missing. However because of the presence of the govt lot there is theoretically no legal QQ or QQQ description, so as an alternative the QQQ could be removed entirely.
