Conditions of Approval:

1. 067 The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
2. 065 The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.

IDAHO DEPARTMENT OF WATER RESOURCES

Water Permit Report 63-33373

3. 066 Prior to diversion of water under this right, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to use power records to determine the amount of water diverted from each point of diversion listed under this right.
4. 03A The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
5. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.
This permit does not authorize the development and irrigation of land not previously irrigated under prior temporary approval of this application.
Water bearing zone to be appropriated is 200 to 350 feet.
6. 069 Failure of the right holder to comply with any condition of approval is cause for the Director to void this permit.
7. 068 This permit does not authorize the construction of any new well or the deepening or enlargement of any existing well.
