Re Application for Transfer No. 75977 (Water Right No. 79-14232)

Dear Mr. Mullinex:

The application referenced above has been assigned to me for review and processing. I see that the underlying parent right no. 79-2094, owned by the Killgores, is undergoing a permissive review by the SRBA Court. The disposition of no. 79-2094 by the Court may take months or longer, and will delay the processing of this transfer by at least that time period. There are 2 ways we can approach this situation. You can withdraw your application within 30 days for a full refund of the fee paid and re-file at a later date, or you can request an extension of time for 6 months.

I must receive either the enclosed Withdrawal Form or a written request for an extension by March 16, 2010. If I hear nothing from you, the application will be voided and the fees will not be refunded. Please call me at 208.334.2190 if you have additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Vicky Music'.

Vicky Music

Sr. Water Resource Agent
