Re: Change in Point Of Diversion, Transfer #75833

Mr. Hansen:

I am sending you a revised application for transfer #75833. As you remember last year you filed a transfer to correct the location of an irrigation well under water rights 36-11508 and 36-2473A. The well was deepened last year by Apex drilling, however the well did not produce the desired amount of water and a new location for the well has been identified. Kory Lloyd of Allied Drilling^{as} identified the location of the new well. It is my understanding that the new well will replace the old well.

Please review the attached transfer application and map, sign if you agree with the application. You will notice that the only change to the water rights will be the location of the Point Of Diversion. You will also notice that no change to the Place Of Use has occurred. If there are any questions or if any additional changes need to be made please contact me at 736-3033.

Also, to complete the transfer the Department will need a letter from FSA indicating that they are in agreement with the proposed transfer.

Sincerely,

Nathan Erickson
Water Resource Agent
