Mr. Peppersack

DEPARTMENT OF
WATER RESOURCES

I received a letter packet containing about Kevin Madsen's protest against Jim & Carolyn Folke application for water rights on Grassen Creek. I also have a complaint filed with the water board, but did not find it listed in this packet of March 31/10. My protest was sent 10/20/09 to Gary Spackman, your Dept. This packet 3/31/10. I will refer to point #2 Mr Madsen was right. I lived on Grassen Creek for 16 years and as I stated in my protest, it goes dry 70 percent of the year, especially August & September point #3 Mr Madsen did not contradict himself. Mr Folke twisted the truth about the City Council pond, The City fills the pond by pipe which comes out of Grassen Creek a few yards up Grassen Creek from City Hall. point #4 Mr Madsen was right on this one also, as I stated in my protest, point #5. Mr Madsen was right on this one also. It appears that Mr Folke does not respect our law enforcement here in our County, also Mr Folke is applying for water rights on Grassen Creek, I don't understand what East Fork ditch keeps coming up, addendum to point #3 Jim Folke didn't finish the sentence started by Mr. Ford. but it gets taped off from run off in the spring. by a pipe from Grassen Creek all the above is true.

I give Kevin Madsen^{Mr} permission to read this to the Dept. of Water ~~resources~~ resources hearing on 4-21-10 as I will not attend the hearing.

I protested application for permit 67-14975 of Jim and Carolyn Folke, to deny water right to them.

Lloyd J Brown
