Jana,

I have discussed this with the Flanigans.
We have decided to leave the application as is, and deal with 37-8870 separately.
I will call to discuss this further tomorrow.

I thank you very much for your helpful consideration and guidance.

- Chris

It is not necessarily required to update the POD for right 37-8870. As you recall, you discussed this particular matter with IDWR personnel at the state office as you indicated in your January 29, 2008 letter to Jeff Peppersack. As indicated in the letter "a transfer to correct this error would be permissible, but is not required". However, this may be an opportune time to accomplish a correction of the POD for right 37-8870, since it could be included as part of the currently filed application (no additional filing fees, public notice, processing time, etc.)

Probably the best way to accomplish this would be to submit a replacement application and attachments that could replace the entire application and attachments that are currently filed. While being a "new replacement" application, in reality it would be generally the same application with some slight modifications to the application and attachments. If this were to be submitted to our office along with a cover letter asking to replace the currently filed application we could proceed in processing the new application. As an alternative, you could just submit the modified pages of the application and attachments along with a cover letter indicating that we should replace the various pages. Whichever is easiest and quickest for you.

Let me know if you have any other questions.

Thank you,

Jana

I was waiting to hear back from you.
(Perhaps I misunderstood).

I thought you were going to check to confirm that it is appropriate to change the POD.
And, if so, what is the best way to make the change?
Do we need to re-submit the application, submit a letter, or what?

- Chris

Chris,

This is in reference to our last conversation regarding the Flanigan transfer. I am wondering if I should proceed with processing the transfer as submitted or if you were still interested in possibly correcting the point of diversion for license 37-8870?

Let me know your thoughts. If I do not hear from you soon I will take that as indication to move forward with the application as submitted.

Thank you,

Jana
