RE: App For Transfer 73745

Dear Mr. Millenkamp;

We have been holding your application for a long time so that you could find a suitable location for your new irrigation well. It is my understanding that the test well you drilled last summer does not appear to provide enough water for irrigation, and that you are looking for another site. I have been working with Gary Funderburg to get the new well location so that it could be included in your application, but he told me that you have not supplied the needed information. We cannot hold your application indefinitely, so please provide a written description of the new well site by April 12 so that processing of your application can continue. If we do not hear from you by then, the application will be advertised as currently filed. If you decide to change any points of diversion after advertising, an amendment fee of \$50 will be due.

Regards,

James E. Stanton
Sr. Water Resource Agent

Cc: Gary Funderburg
