RE: App For Transfer 73745, East Valley Cattle (Irrigation)

Dear Gary;

My review of this application to date has brought up several questions that need to be answered before processing can continue. My understanding is that the transfer will tie 5 farms together (the Bob Moss place, 2 Hunsaker farms, the M & H Farms place, & the Buck place); is this correct? The system drawing that accompanied the application covers all these farms, but the application itself only covers the Hunsaker property. With adjustments due to forfeiture of some expansion acres, I am showing 70.2 cfs on about 5094 acres. You list twelve wells (ten existing & two new), but I am showing a total of 19 existing wells on this ground. As we discussed, the well in the SW1/4 Sec. 22 appears to be shared with Dan Moss; if this is the case, we need a written ok from him to include this well in the transfer. The corrected application that I will eventually produce leaves irrigated land in Sec. 35 that has not yet been dried up for the feedlot, as I have no indication that they want to put this water anywhere else on their property.

Regards,

James E. Stanton
Sr. Water Resource Agent
