Re: Water Right Application No. 63-33322 and Well Drilling Fee Upgrade

Dear Applicants:

Your water right application proposes ground water use from an existing well. All wells drilled in Idaho after June 30, 1987, require well drilling permits. A well might need a water right along with the drilling permit, depending on the intended use of the well. A well for single family domestic uses was not required to have a water right; however, a well to be used for irrigation purposes and more than one home is required to have a water right.

According to our records, your well was drilled in 2001 under a \$75.00 domestic well drilling permit. A \$75.00 drilling permit covers a well that does not require a water right and is typically for a single-family domestic use.

The proposed uses from your well under the above referenced application for permit requires a well drilling permit fee of \$200.00 instead of \$75.00. The Department must collect the unpaid balance of \$125.00 for a well drilled under those circumstances.

Please remit \$125.00 to upgrade your well drilling permit within the next thirty days to facilitate processing of your water right application.

We will not hold up processing of your water right application while waiting for this fee. However, if the fee is not paid before licensing of this right, a license may not be issued for anymore than single family domestic use. Please feel free to contact me at 334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Dear Mr. and Mrs. Jones:

We are in the process of reviewing the above referenced application for permit that you submitted on December 23, 2009 and find we need additional information. We need to know what water bearing zone you intend to appropriate for this use. The well log you submitted shows the well is 132 feet deep and water was found between 75 and 126 feet. Please respond to this e-mail with this statement completed:

Water bearing zone to be appropriated is from _90_ to _130_ feet.

We must have some written documentation in our file regarding your intentions. Thank you for your attention to this matter.

Sincerely,

KAY WALKER

Sr. Water Resource Agent
