Re: Spring Creek Idaho Ranch LLC- (3) Water Right Transfer Applications.

Dear Mr. Jones,

Attached are three (3) water right transfer applications appurtenant to property owned by the Spring Creek Idaho Ranch LLC in T.01S R.18E, Blaine County Idaho. Specifically, these three transfers deal with water rights 37-180, 37-181, 37-231A, 37-233, 37-310A, 37-1207 and 37-19831. Spring Creek Idaho Ranch LLC seeks to create a permissible place of use on a portion of their property, so that the location of acreage recommended by IDWR will conform to existing pivot configurations. Because you formulated the SRBA recommendations for the water rights on the Spring Creek Idaho Ranch, I am hoping that you will be able to assist in the processing of these transfer applications.

Also attached is a check from Brockway Engineering for \$1390.00 for all three transfer applications, and a limited power of attorney (LPA) document for these water right transfer applications so that Brockway Engineering may make changes to the applications with Spring Creek Idaho Ranch LLC's consent, should they be needed. Please copy our office on all correspondence regarding these water right transfer applications. Thanks for your time and attention to this matter and don't hesitate to give me a call should you have questions or comments.

Regards,

Zach Latham, M.S., Hydrologist

Enclosures- 3 Water Right Transfer Applications, 1 LPA Document.
