Jeanie-

Here is the 37-2597 shapefile place of use minus the proposed open water. If this shape file still doesn't work, the place of use for 37-2764 is the same so that shape file should work for both water rights. Thanks-

Zach Latham

Just to let you know, I had trouble adding the file for 37-2597 in my Arcmap project. The others added okay. Maybe you should resend the files for 37-2597?

Subject: SV Ranch LLC- 37-2597, 37-2764 and Dry Up Acres Shapefiles

Jeanie-

Please see the attached shapefiles for:

- Updated Place of Use for ground water rights 37-2597 and 37-2764 WITHOUT the proposed open water surfaces. These files have today's date on them and are meant to supersede the place of use shapefiles for these two rights previously sent to your office.
- Potential dry up area for consumptive use balance on the Spring Creek Idaho Ranch LLC property.

Thanks!
