RE: WATER RIGHTS 43-4037 AND 43-7126

Basin 43 - 145

Gentlemen:

Department records show that you are the current owner of the above referenced water rights that have been leased to the Water Supply Bank ("bank") operated by the Idaho Water Resource Board. The rights were placed in the bank in July 1995 when the rights were owned by Brugger Corporation. The duration of the lease to the bank by the Brugger Corporation was indefinite. Hence Department records show that the water rights presently are in the bank and are eligible for rental to other water users. If your intent is to divert and use the rights, you need to request removal of the rights from the bank.

The purpose of this letter is to inquire whether you wish to leave the water rights in the bank or remove them from the bank. Several items to keep in mind in connection with water rights leased to the bank are as follows:

1. There is no rental payment to the owner of the water right if the right or a part thereof is not rented from the bank. *1000 AM ACRES FT*
2. While a right is in the bank, the owner of the right may not use the right even if the right is not rented. *Double use.*
3. A right accepted into the bank stays in the bank until the Board releases it or until the lease term expires. *indefinite or until owner requires them out.*
4. While a water right is in the bank, forfeiture provisions are stayed. *past use.*
5. Acceptance of a right into the bank does not, in itself, confirm the validity of a right or any element of a right.

If you have questions about this letter or the water supply bank and its operation, feel free to contact me. I can be reached directly at (208) 327-7955.

Sincerely,

L. GLEN SAXTON, P.E.
Chief, Water Allocation Bureau
