

MEMORANDUM

Date: April 19, 2010
Re: Transfer 76299
From: hbohac

This transfer proposes to add a POD to water right 1-328. Allan Corbett, a patron of Snake River Valley Irrigation District would like to install a pump to divert water directly from the Snake River. This will greatly reduce losses he is experiencing as his water currently travels down over 2 miles of canals before it reaches his land. The pump will be on the Corbett property and will discharge water into a ditch. The pump will be limited to .33 cfs. Water use is irrigation.

Authority to File:

Snake River Irrigation District is the current owners of 1-328. Tax lot data provided shows Allan Corbett to be the current owner of land where the new POD will be installed. Mr. Corbett has also provided signed documentation allowing Snake River Irrigation District to install a POD on his property.

Water Right Validity:

Water right involved was decreed in 2008. 2009 Satellite Image shows land to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA and within Water District 01. Will request Watermaster comment. Will advertise transfer.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
