45-13788	NO	NO	NO	YES	NO	NO

Describe the reason for the proposed changes

We have the right under a previous transfer to have 4 wells for this dairy. Three wells have been drilled, but the fourth has not. We want to add a fifth location so that a new well can be drilled there. There will be five wells in the system eventually. Nothing else is changing at this time. All the wells will pump into a storage tank, and water will be distributed from the tank as needed.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change

Conditions/Remarks:

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
2. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 140.
3. Prior to the diversion and use of water under Transfer approval 73592, the right holder shall install and maintain acceptable measuring devices, including data loggers, at the authorized points of diversion, in accordance with Department specifications. Water diverted from the irrigation well within SESESE Sec 13, T12S, R20E, for use at the dairy must be measured independently from the irrigation water also diverted from the well.
4. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversions.
5. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
6. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
7. Commercial use is for a dairy.
8. Domestic use is for 3 homes and does not include lawn, garden, landscape, or other types of irrigation.
9. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
