

MEMORANDUM

Date: September 29, 2004
To: Water Right File 74-14993
From: Shelley Keen *SK*
Re: Location of the beginning of the reach

Section 42-1506, Idaho Code, indicates that the minimum stream flow reach shall begin at the L-6 diversion in the SE1/4 of Section 24, T21N, R22E, B. M. The preliminary order issuing the permit defines the beginning point the same way. The permit document, however, describes the beginning point much more precisely as the SE1/4SW1/4SE1/4 of Section 24, T21N, R22E, B. M., because that is how it was described on the map submitted by the applicant and because IDWR is required to describe points of diversion more precisely than to the quarter-section. The L-6 diversion is, in fact, in the SW1/4SE1/4SE1/4 of Section 24, which is how it will be described on the water right license when it is issued.

Beginning Point of Lemhi Minimum Stream Flow Reach -- Right 74-14993
