RE: Application for Permit 63-12220

Dear Applicant:

Your application for permit to appropriate ground water for irrigation purposes was received on 6/13/1995. Processing of your application must be delayed.

Due to continued drought and to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/1992 concerning water right applications proposing new consumptive uses of public water. The moratorium has now been lifted, but a backlog of applications filed during the moratorium must first be processed before new applications may be considered. It is not likely that your application for permit can be processed for use during the 1995 irrigation season.

This office will hold your application and will begin processing as soon as our backlog has been eliminated. All applications received will be processed in priority order. Delays related to department actions do not affect the date of priority or seniority of your application, once established.

If you have any questions, please feel free to contact me at 334-2190.

Sincerely,

Lori Graves
Sr. Water Resource Agent
