MEMORANDUM

DATE: April 9, 2010
TO: Denise Buffington
FROM: Sandra Thiel
RE: Application for Permit No. 65-23375 and 65-23376

The IDWR Planning Section does not wish to raise any public interest concerns over Application Nos. 65-23375 and 65-23376, which propose the diversion of 0.78 cfs of water each from Paddy and Wagon Bay Creeks for commercial purposes. The applicant should be aware that the Idaho Water Resource Board holds minimum stream flow water right downstream from the applicant's point of diversion. As a junior water right holder, when the minimum stream flow is not being met, the applicant's water may be curtailed.

The Idaho Water Resource Board would also like assurance that the applicant's water right will be actively administered to protect the Board's minimum stream flow right.
