Re: transfer evaluation

This transfer proposes to move the point of diversion and place of use to a different location on the same owners land. No Last Chance Canal shares at the old place of use. New point of diversion maybe 100 ft upstream from old pod.

Authority to File:

Applicant is the owner of record as far as the old decree place of use and has a warranty deed for the property .

Water Right Validity:

Water has been used at the new place of use. Air photos from 2009 show it to be irrigated.

Injury to Other Water Rights:

Maybe its in WD 13S. Watermaster did not respond.

Transfer will be advertised to determine any protests. No protests recieved.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
