Re: transfer evaluation

This transfer proposes to add a point of diversion for water rights 32-9A, 32-10A, 32-11A, 32-12A and 32-13A. The additional point of diversion is located downstream approximately .38 creek miles from original point of diversion.

Authority to File:

Applicant is the current owner of water rights per IDWR record. The additional point of diversion will be located on applicants property.

Water Right Validity:

Water rights were decreed in 2000. 2009 aerial photo shows land to be irrigated. Forfeiture not an issue.

Injury to Other Water Rights:

within WD 32-C. The additional point of diversion is located downstream approx. .38 creek miles from the original diversion. Only a stockwater right (32-10061; 1883 priority) is located between the original and additional point of diversion. No evidence of injury.

Watermaster does not oppose transfer if the diversion of water from the additional point of diversion is reduced by 5 percent.

Advertise to determine protest.

Enlargement of Use:

No issues identified

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
