To Whom It May Concern:

Trout Unlimited has contacted me regarding a transfer or moving of the Glen Bills diversion 250 feet upstream from its existing location because it is a more suitable location for a new structure to be built that will not require a fish ladder. By moving the diversion upstream it crosses a $\frac{1}{4}$ - $\frac{1}{4}$ section line and therefore a transfer is required.

The existing and the new point of diversion are both located on my property. A trespass authorization is needed so that Glen Bills or people that are irrigating his property can access the diversion point for routine maintenance.

Let this letter serve to show that I give my permission to Glen Bills and or people who are working on his behalf access to the new diversion point for routine maintenance. In addition to that a short connection ditch will need to be dug to tie into the existing ditch on my property, let this letter also give my permission to Trout Unlimited to accomplish that goal.

If there are any questions regarding this matter I can be reached at the following phone number 208-313-3037.

Sincerely,

A handwritten signature in cursive script that reads "Celeste Beam". The signature is written in dark ink and is positioned above the printed name.
