Subject: Applications for Permit (2); Application for Transfer
Elk Creek Canyon Planned Community

Dear Western,

Enclosed on behalf of Elk Creek Canyon LLC, are two *Applications for Permit* to develop water rights for municipal use. In addition, there is enclosed an *Application for Transfer* to change the point of diversion and place of use for several water rights, and change the nature of use from irrigation to municipal use. These documents represent the first actions in a series of water right actions to develop a public water supply for the Elk Creek Canyon Planned Community between Boise and Mountain Home. The fee for these applications is \$2,650.00; please find a check for that amount enclosed.

Elk Creek Canyon will contain 29,400 residential units, both single and multi-family dwellings, at full build-out. In addition, there will be schools, churches, large and small commercial sites, public facilities such as libraries, and significant acres of parks and open space. A project of this size will take a number of years to complete; Elk Creek Canyon LLC and SPF will cooperate with the Dept. of Water Resources to provide the required information to develop these municipal rights.

Please let me know if there are any questions concerning these applications.

Sincerely,

Roxanne Brown
Water Rights Specialist
