

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 3-10266

Priority: December 02, 2009

Maximum Diversion Rate: 0.04 CFS

This is to certify, that JEFF SCOGGIN Or
KIM SCOGGIN
3588 W FAIRWAY DR
COEUR D ALENE ID 83815
(208) 769-4809

has applied for a permit to appropriate water from:

Source: SNAKE RIVER

Tributary: COLUMBIA RIVER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
DOMESTIC	01/01 to 12/31	0.04 CFS

LOCATION OF POINT(S) OF DIVERSION:

SNAKE RIVER, L2 (SW1/4NW1/4), Sec. 11, Twp 31N, Rge 05W, B.M., NEZ PERCE County

PLACE OF USE: DOMESTIC

Twp Rge Sec	NE				NW				SW				SE				
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	Totals
31N 05W 11							X										
							L 2										

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **March 01, 2011**.
2. Subject to all prior water rights.
3. This right does not grant any right-of-way or easement across the land of another.
4. Domestic use is for 1 home.
5. The irrigation occurring under this domestic use shall not exceed 1/2 acre.
6. A fish screen of 0.25 inch or smaller mesh shall be installed and maintained at the point of diversion.
7. This right shall conform to the minimum stream flow requirements for the Snake River as per water rights 3-6, 3-7 and 3-8.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this 4th day of March, 2010.

RE: Permit No.03-10266

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 762-2800.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith E. Franklin". The signature is fluid and cursive, with the first name "Keith" being more prominent.

Keith E. Franklin

Sr. Water Resources Agent

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on March 5, 2010 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

03-10266

**JEFF SCOGGIN
3588 W FAIRWAY DR
COEUR D ALENE ID 83815**

**KIM SCOGGIN
3588 W FAIRWAY DR
COEUR D ALENE ID 83815**

A handwritten signature in cursive script, reading "Carolyn S. Monitz", is written over a horizontal line.

**Carolyn S. Monitz
Technical Records Clerk**

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Subject: RE: Fernan Creek update

Hi Greg,

Sorry we couldn't get together to visit this site. Here is what I know about Fernan Lake Road:

I drove through the site Wednesday March 3 with EPA but didn't have time to stop and look at anything. Construction had resumed with excavators and dump trucks working. There was a 20 minute delay in traffic to accommodate the construction work. As we waited at the east end of the project, several dump trucks dumped rock in the parking lot across from the waste soil area. Further west on the project, they had cut a large section of slope along the existing road, filling one lane of the road with about eight feet of rock and dirt. It was about 100 feet long. I could also see where slides occurred over the winter from the new cut slopes.

Mark Guse called March 4 about something to do with a vault toilet. In the conversation he explained that they were excavating the side slopes of the road per project design because they needed the rock to place over the slide areas. He considered the slope excavation part of erosion control activity. He said they were shut down today but what he considers shutdown, I would not venture a guess.

Back to the vault toilet situation. Mark said the agencies were opposed to the toilet but after further questioning it sounded like Federal Highways forgot to put the toilet in the plans and were having to back track and include that in their design. He blamed the Corps for not being able to install it. After more questioning, the problem was that Mark didn't tell the County about the work window for this project. So the County was going to install the toilet next week. I told him I supported the toilet improvement but it could easily be installed within

the scheduled work window after April 15. Mark also said the well Federal Highways drilled a well for an impacted homeowner also during the winter shutdown. [They had to do this because they were working during a storm event and rendered this family's drinking water supply muddy. They draw water from the lake.] Federal Highways can get good prices for work like well drilling and toilet installation because Fernan Lake Road was the only road around that had no load limits.

The toilet situation is similar to the utility work we saw on this project last year in the early winter after the shutdown date. When asked about it during the work, Pat Sayers said that they couldn't control the utility and when they did their work. This spring there is a considerable amount of water flowing in that bare earth ditch which ends up in Fernan Creek. They did install BMPs but some were not adequate for flowing water. This source of sediment could have been eliminated by doing the work after the ditch dried up. If they had waited until then, an adequate amount of grass and vegetation would have grown in the ditch over the summer preventing movement of soil. The consequence of this utility work done outside of the work window is exactly why the shutdown period was required. Fernan Lake is not a water body that can withstand the addition of even minor amounts of phosphorus bearing soils.

All in all, the weather is setting records for no snow and low precipitation. This has save Fernan Lake from considerable amounts of sediment from this project. In the future, it would be beneficial to water quality to have Federal Highways observe the shutdown period for all

their activities and plan ahead to schedule critical work so it can also occur during this work window.

June

Leroy,

This article was in today's paper. They were doing a lot more than erosion control, but again, I didn't see any work in waters.

Good afternoon, Karen,

I trust you had a blessed Christmas holiday, and hope your new year will be filled to overflowing with joy unspeakable!

Please publish the enclosed legal notice on the dates indicated, January 7 and 14, 2010, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

Our new system kicks the legal notices out and will attach them as a WORD document, but I have also embodied the legal notice below in case there are any questions. . Please let me know if you can or cannot open the WORD document.

Please send a proof/preview copy for my review prior to publication. We prefer a 2 column width publication if possible.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 1/25/2010. Your cooperation is greatly appreciated, as always.

Application For Permit No. 3-10266

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the LEWISTON MORNING TRIBUNE on 1/7/2010 and 1/14/2010. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Keith Franklin

IDL does not require a permit for water use of this size. We do however recommend that the intake be screened to prevent small fish uptake and that disturbance below the ordinary high water mark be kept to a minimum and done by hand. Thanks.
