Re: Water Right Application for Exchange of Water- 37-1228E Holman.

Dear Corey,

Enclosed is an application for exchange of water in the name of Carol D. and Eugene Holman Jr. dealing with water right 37-1228E. Based the recommendation from Shelley Keen at the IDWR State Office in Boise during a recent telephone conversation also involving yourself, Chuck Brockway Sr., and myself, we are filing an application for exchange to allow for the point of diversion for the split portion of water right 37-1228E to be moved from Townsend Gulch Creek to the spring on Lot 2D of the Townsend Gulch Subdivision. It is our understanding that processing of water right transfer #'s 76221 and 76222 dealing with 37-1228E will continue with the receipt of the enclosed application for exchange of water which would include an impact analysis of the proposed change in the point of diversion.

Give our office a call should you or the agent processing the water right transfer or exchange applications have any comments or questions. Please copy our office on all correspondence dealing with the water right transfer and exchange applications. Thanks for your time and have a great day.
