**Subject:** Holman WR Transfer Map for Meeting

Shelley-

To follow up on your conversation with Chuck Sr. yesterday, I have attached a map showing the recommended, existing, and proposed points of diversion, as well as the proposed places of use for the Holman water right transfer dealing with water right 37-1228E in Blaine County Idaho. Chuck would like to continue your discussion regarding the need for an exchange application sometime next week. Please let me know when you will be available to discuss this matter by phone, Corey Skinner at the Southern Region Office will also probably want to be on in on the call. Thanks for your time and have a great rest of your holiday week.

Zach Latham
