

MEMORANDUM

TO: File 37-8249

FROM: Monica Van Bussum

DATE: March 17, 2010

RE: Amendment for license 37-8249

Pursuant to some proceedings in the SRBA, I was asked to review 37-8249 and determine if grounds exist for amending the legal description for POD and POU of 37-8249 from T02N R18E Sec 4 NWSW to T02N R18E Sec 5 NESE. I reviewed the original 1882 survey and found it to be unhelpful in determining the correct legal description, as were other surveys available from the BLM GLO records available online. According to our current records, the POD and POU are clearly in Section 5 NESE and, after discussion with Shelley Keen about this matter, we have decided to solicit an application for amendment.

Once the amendment is returned by the water user, we will issue an order correcting the license. I have prepared one and it is ready to go out upon receipt of the amendment.
