RE: Transfer Application 75824, City of Coeur d' Alene

Dear Ms. Tinkey,

Transfer Application No. 75824 has been forwarded to me to continue processing. I have reviewed the information submitted and found a discrepancy that will need to be addressed before the application can continue to move forward. Part 1.5.e of the application states that Water Rights 95-2111, 95-2133, 95-2198, 95-7142, 95-7181, 95-8565, 95-8647, 95-8672, 95-8938, & 95-9007 (Coeur d' Alene's municipal water rights) will share the same diversion system and place of use. The place of use the Department has on file for the City's municipal rights and the place of use outlined by the electronic shapefile submitted with the transfer application do not match. I have enclosed a map for your convenience. On the larger map you will find two shapes labeled "City_pou" and "CDA_SERVICE_AREA." The City_pou represents the place of use the Department has on file for Coeur d' Alene's municipal rights. The CDA_SERVICE_AREA represents the place of use described by the shapefile submitted with the transfer application. Please clarify which is the correct place of use. You will also see in the larger map 11 red dots that represent the City's points of diversion, including the 11th well corresponding to Right No. 95-2164. Please confirm that this is a correct representation of the City's diversion system.

The inset map shows the current place of use and point of diversion for Right No. 95-2164. Please verify the location of the point of diversion. If you have any questions feel free to contact me by phone at (208) 287-4949 or by email at nick.vandyke@idwr.idaho.gov

Sincerely,

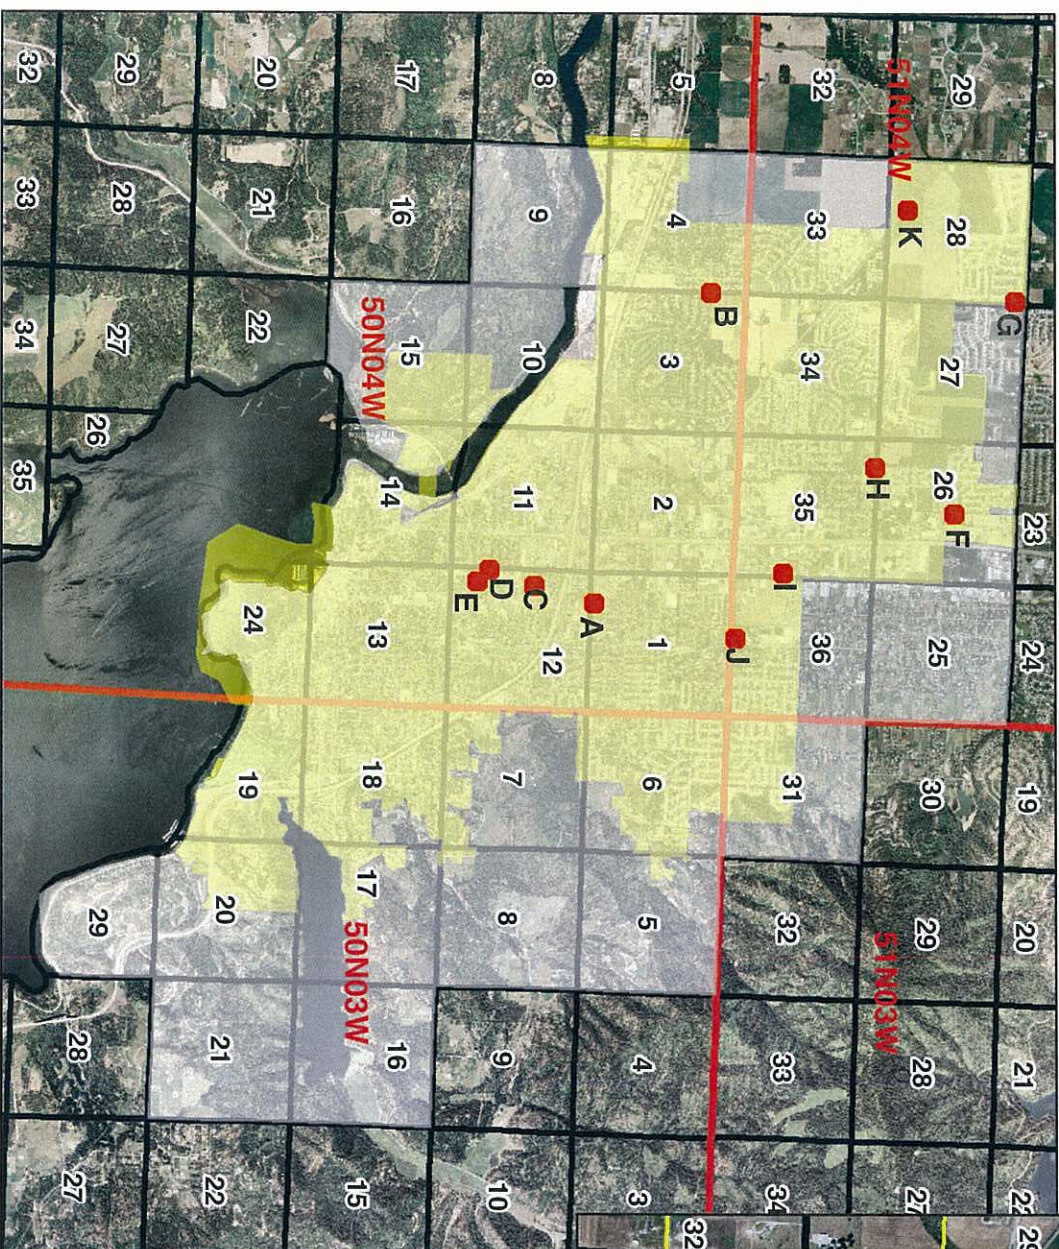

Nicholas Van Dyke
Water Resource Agent, Sr.
