

MEMORANDUM

To: File 72-07529 (Hurless)
From: L. Glen Saxton *LS*
RE: WILDERNESS MORATORIUM INQUIRY
Date: November 5, 1999

RECEIVED

NOV 12 1999

Department of Water Resources
Southern Region

On this date, Dana Hurless called from Clayton, Idaho in connection with the wilderness moratorium order as to what effect the order has on pending application 72-07529. I checked the application and determined that the application was being held due to the prior drought moratorium on diversion from the Salmon River.

Hence, I advised Ms. Hurless that there was nothing she needs to file with the department and that the department would continue to hold the application.
