RE: Augment record for License No. 36-8475

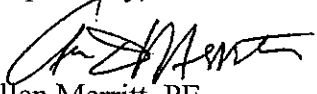

Dear Mr. Tippet:

As you may recall the Department Licensed right 36-8475 on May 22, 2009. Prior to licensing you filed a licensing amendment prepared by the Department as required changing the scope of the original permit to match what was actually achieved or developed under the original permit.

During a recent quality assurance review of the file it was noticed that the original licensing amendment was not signed by the Department or a copy sent to you according to usual procedure. To correct this oversight, please find enclosed an approval document of the licensing amendment. Please note that this document just augments the record but does not change License 36-8475 issued on May 22, 2009.

I apologize for this oversight and potential confusion. If you have questions please give me a call.

Respectfully,

Allen Merritt, PE
Southern Region Manager

Encl: Approved Licensing Amendment
