Re: Evaluation of proposed DeVries transfer #75529

Brockway Engineering has reviewed Mike McVay analysis contained in both Memos dated December 16, 2009 and January 8, 2010. Mr. McVay's analysis indicates that there will be no drawdown at the Protestants well as a result the Applicants proposed transfer. We concur with the analysis performed by Mr. McVay. Therefore, it is appropriate for the Hearing officer to approve the transfer based upon the analysis performed and the resulting conclusions.
