Subject: Request for staff review and memorandum for transfer no. 75529 in the name of Devries

I'm reviewing a transfer that is a contested case. The parties have submitted documents that have been scanned and profiled under right 47-16331 about the hydrology of the area.

I request that the hydrology section review the documents and prepare a staff memorandum about the transfer.

I am in the process of writing a decision for the contested case and would like to consider hydrology's analysis.

Thanks,

Allen
