

Telecon with Bob Sheffer - watermaster WD34

RE: Mark Holmes - water rights -

Bob indicated the minimum assessment ~~paid~~ paid by Holmes in 2007 & 2008 was based on 34-4017, though there was no diversion. The WD. does not assess for non-consumptive rights, re 34-7113 for fish propagation.

He also told me a 1934 priority for irrigation is not deliverable every year. In those years when there is sufficient water ~~for 1934~~ to deliver water under a 1934 priority, it would only last a few weeks.

Ernie.
