BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a FILING FEE of \$50.00 to be included with this form when filed with IDWR.

Permit No. 96-9219 Date Proof is Due: APRIL 1, 2010Name(s) of Permit Holder: SCHWEITZER BASIN WATER COMPANYAddress: PO BOX 772 City SAGLE State ID Zip 83860Telephone No. 208-263-7117 Email: MBATLAKE@TELEVAR.COM

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

A Resistivity Survey was conducted by Monks Hydrogeological Consulting on part of the proposed well site. A well site was determined and the site was developed. The resulting well did not produce as much water as anticipated.

The remainder of the site has been cleared of bush to allow more testing by Monks Consulting this coming summer. After testing and a new location is determined excavation and road building will take place. With the completion of this work a well can be drilled to complete this project. Costing \$32,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The area where the site is located is difficult to access and the work season is very short. The difficulty in working in the mountains along with added testing and site development for a second well site has the extended our time line beyond the standard time allotment. The work proposed should be completed in two working seasons
